

Covid-19: How can we help you?

Blockley Parish Council is seeking your views on what information and support you'd like from us, as lockdown measures begin to enter a new phase.

As your first tier of local government, we're here to represent you and help improve community cohesion and wellbeing. This means we can provide information and practical support for things like:

- Grants and financial support
- Local food delivery services
- Playgrounds*, cemeteries and common areas
- Emotional and mental health support
- Sharing district and county council updates on local services
- Food bank collections
- Coordinating local volunteer efforts

Is anything missing? What would be useful for you?
